

- for pulling of loads
- CE sign based on Machinery Directive 2006/42/EC
- Product meets European Standard EN 14492-1

ATV 8 with cable remote control

rocker switch

solenoid

	model	ATV 8
	rope Ø	5 mm
	voltage	12 Volt
	weight without rope	9 kg
rope layer 1	line pull	8,0 kN
	rope length	1,5 m
rope layer 2	line pull	6,6 kN
	rope length	4,5 m
rope layer 3	line pull	5,3 kN
	rope length	6 m
rope layer 4	line pull	4,8 kN
	rope length	10,6 m

1 kN equals approx. 100 kg / 220 lbs

Features:

- light-weight construction
- electric motor with low amperage draw
- for connection to vehicle battery
- solenoid box for separate mounting
- emergency cut-off with solenoid
- fast planetary gearbox
- freespool clutch for manual reel-off
- load-holding brake
- roller guide
- steel wire rope with safety hook
- cable remote control

Accessories:

mounting plates, even mobile, synthetic rope Dyneema SK 75, aluminium hawse fairlead, wireless remote control, level winder, electric connection and battery cables, lengths per request
