

## Electric Hoist 230 Volt

### Features CP500

lightweight, compact design, easy installation  
cable remote control included  
electromagnetic spring-applied fail safe brake  
planetary gears for efficiency  
ball bearings for quiet running  
tie bars between drum flanges prevent rope loss  
steel housing to be mounted by bolts

### Specifications

lifting capacity on wire rope top layer: (safety factor 4)		500 kg
Lifting speed under load		
	first layer:	10 m/min
	top layer:	15 m/min
Motor:		1.8 kW, 4 poles
max. lifting height:		58 m
wire rope	diameter:	7 mm
	length:	60 m
wire rope drum	diameter:	102 mm
drum flange	diameter:	180 mm
distance between flanges:		220 mm
mounting bolt pattern:		267 mm x 156 mm
net weight of winch:		55 kg

### Option:

wireless remote control complete with interface and solenoid for operating a 230 V hoist	24 V
